

Create an Antler Crown

DIRECTIONS

1. With the help of a parent or guardian, use a pair of scissors to cut out the image of a crown on the next two pages. Make sure to cut along the dotted lines.
2. Once you have cut out both pieces of the crown, use glue, tape, or a stapler to connect them in the front.
3. Wrap the crown around your head and use a piece of regular tape to attach pieces of the crown in the back.
